Dear Dr. Burton,

This is Rita Shao, the Managing Editor of Entropy journal. Thank you for your attention on the Entropy published article.

According to MDPI's policy for Comment, Readers who have concerns about published papers *should first contact the corresponding author to attempt a resolution directly*, before contacting the Editorial Office.

The Editorial Office may be contacted in cases where it is not appropriate to contact the authors, if the authors were not responsive, or if the concerns were not resolved. The Editorial Office will coordinate with the complainant, author/s and Editors-in-Chief or Editorial Board members for the investigation, remedy or resolution of any concerns.

Please read more details at: <https://www.mdpi.com/ethics#16>

I would suggest that you contact with the authors of the paper you commented: <https://www.mdpi.com/1099-4300/25/2/384>. The corresponding authors' contact information can be easily found.

Please feel free to get in touch if you have any question.

Subject: MDPI Contact Form: Letters (or other format) in response to a paper

Dear all,

The following message has been sent to you from the [mdpi.com](https://www.mdpi.com) contact form.

Query: Other (general queries)

Dear MDPI,

Do you accept Letters or "comment-on" papers, in response to papers published in your journal, "Entropy"?

I'm considering writing to you about errors in this paper:

<https://www.mdpi.com/1099-4300/25/2/384>

Stallinga, P. Residence Time vs. Adjustment Time of Carbon Dioxide in the Atmosphere. Entropy 2023, 25, 384. <https://doi.org/10.3390/e25020384>

Please provide guidelines to me for the option(s) available for a response, including length limits.

Sincerely,
David Burton

Dear Rita and the Entropy Editorial Office,

I corresponded with Dr. Stallinga about the errors in his paper. Unfortunately, the conversation was unproductive. He replied to a couple of my emails, but he did not seem to understand the points I made, and then he ceased replying substantively at all.

A colleague also corresponded with him about the errors in his paper, at much greater length, but no matter how clearly my colleague made his points, Dr. Stallinga seemed not to understand them.

So I'd like to know whether you will accept a letter or "comment-on" paper for "Entropy," about the errors in Dr. Stallinga's paper.

BTW, I have only a masters degree, not a PhD, so I'm "Mr. Burton," not "Dr. Burton."

Sincerely,
Mr. David Burton
